

**The Third International  
Symposium on Frontiers in  
Nuclear Physics – Use of RI  
beams for study of reaction  
mechanisms and coupling  
between bound and  
continuum states**

Thursday, 1 November 2012 - Saturday, 3 November 2012

Beihang University, Beijing, China

**Book of Abstracts**

# Contents

Advancing the theory of deuteron stripping reactions populating bound states and resonances and application for nuclear astrophysics . . . . . 1

test title . . . . . 1

16

## **Advancing the theory of deuteron stripping reactions populating bound states and resonances and application for nuclear astrophysics**

**Author:** Akram M. Mukhamedzhanov<sup>1</sup>

<sup>1</sup> *Texas A&M University, College Station*
