

The 9th International Workshop on Heavy Quarkonium 2013

Monday, 22 April 2013 - Friday, 26 April 2013

IHEP, Beijing

Book of Abstracts

Contents

Searches for XYZ exotic states at LHCb	1
XYZ studies at BESIII	1
Exotic quarkonium spectroscopy from CMS	1
X _{c,b} and XYZ searches at ATLAS	1
Double-parton Fragmentation in quarkonium production	1
Double-parton Fragmentation in quarkonium production	1
Quarkonium production at CMS	1
Quarkonium production at ATLAS	1
Quarkonium production at LHCb	2
Factorization in inclusive quarkonium production	2
Global analysis of yield and polarization of the J/psi at Tevatron and LHC	2
Double-parton Fragmentation in quarkonium production	2
Double-parton Fragmentation in quarkonium production	2
Quarkonium production at CMS [presentation via SKYPE]	2
Quarkonium production at ATLAS	2
News on Quarkonium production at LHCb	3
Factorization in inclusive quarkonium production	3
Global analysis of yield and polarization of the J/psi at Tevatron and LHC	3
J/psi polarization at hadron colliders, spin correlations in P-wave charmonia, Upsilon(1S) production	3
Polarization for Prompt J/psi, psi(2S) production at Tevatron and LHC	3
Discussion:Higher-order corrections, matrix-element extractions, and factorization	3
Quarkonium polarization in pp collisions at 7 TeV at CMS	4
Quarkonium production at LHCb	4

Heavy-quarkonium production at Low P_T in NRQCD with soft gluon resummation . . .	4
Results on charmonium in pp and pPb collisions in ALICE	4
Cyclic Wilson loops at $T>0$	4
Quarkonium dissociation at high temperature	4
Non-perturbative definition of the heavy quark potential at $T>0$	4
Charmonium suppression in Pb-Pb collisions at CMS	5
Properties of the moving quarkonium at high T	5
Bottomonium in lattice NRQCD	5
$Y(nS)$ sequential melting in Pb-Pb collisions at CMS	5
Results on charmonium/bottomonium production in PbPb collisions in ALICE	5
Results from STAR	5
Recombination and quarkonium production	5
Cold nuclear matter effects on quarkonium production	6
Round table: Heavy flavor suppression and transport properties	6
In medium QCD forces at high temperatures	6
$O(\alpha_s)$ corrections to $J/\psi + \chi_{cJ}$ production at B factories	6
Exclusive charmonium production processes and charmonium wave functions	6
Endpoint Logarithms in $e^+e^- \rightarrow J/\psi + \eta_c$	6
Phenomenology and Searches for "bags" of heavy flavor states	7
Charmonia from the lattice	7
Recent bottomonium lattice results	7
String calculation of long range $Q\bar{Q}$ potential	7
Bottomonium spectroscopy at Belle	7
Quarkonium spectroscopy from CLEO-c data	7
Conventional $c\bar{c}$ and $cc\bar{q}$ searches at Belle	8
Multiply charmed baryons and charmonia from the lattice	8
Lattice studies of multiply charmed baryons	8
Symmetries of the QQQ bound states and the singlet static energy at NNLL	8
Two-loop Self Energy in Lattice NRQCD and m_b from the Upsilon Spectrum	8
α_s , m_c , and m_b from Quarkonium Correlators	8

alpha_s from the static lattice potential	8
Recent results from KEDR	9
The mass of the charm quark from unquenched lattice QCD	9
Threshold production of unstable top	9
The pole mass and static self-energy at large orders in perturbation	9
Relative phase between strong and EM decays at BES-III and CLEOc	9
M1 transitions	9
Bc Physics at LHCb	9
Charmonium decays from BESIII	10
J/psi and hc radiative decays to eta_c on the lattice	10
Spin singlet hadronic inclusive decays QCD and relativistic Corrections	10
Bottomonium decays at Belle	10
Resolving the puzzles of quarkonium eta transitions	10
Quarkonium annihilation into photons	10
X_b -> Upsilon(1S) + gamma decays at D0	10
Extracting p_i p_i S-wave scattering lengths from cusp effect in heavy quarkonium dipion transitions	11
Light Flavour and Heavy Quark Spin Symmetry in Heavy Meson Molecules	11
Light quark mass dependence in heavy quarkonium physics	11
Charmonium spectroscopy at BES-III	11
X(3872) production at hadron colliders	11
Study of XYZ states in B decays and two photons at Babar	11
Exotic charmonia at Belle	11
Study of Y states via ISR at Babar	12
Charged bottomonium-like states at Belle	12
Tetraquark Interpretation of the Charged Bottomonium-like states Z_b and Implications	12
X with tetraquark	12
Remarks on hadronic molecules	12
Round table: XYZ: where do we stand	12
Implications of a new light scalar near the bottomonium regime	12

Quarkonium Physics at a Fixed-Target Experiment using the LHC Beams	13
Status of FAIR and PANDA	13
Searches for Low-Mass Higgs in Upsilon decays and other BSM searches	13
Closing Remarks	13
Results from PHENIX	13
Implications of a new light scalar near the bottomonium regime	13
Decoding the riddle of $Y(4260)$ and $Z_c(3900)$	14
Testing the Anomalous Color-Electric Dipole Moment of the c Quark	14

Morning 1 / 3

Searches for XYZ exotic states at LHCb

Author: Jol Bressieux^{N^{one}}

Corresponding Author: joel.bressieux@gmail.com

Morning 1 / 4

XYZ studies at BESIII

Morning 1 / 5

Exotic quarkonium spectroscopy from CMS

Corresponding Author: yk@fnal.gov

Morning 2 / 6

X_{c,b} and XYZ searches at ATLAS

Corresponding Author: claus.buszello@cern.ch

7

Double-parton Fragmentation in quarkonium production

Corresponding Author: yqma.cn@gmail.com

8

Double-parton Fragmentation in quarkonium production

9

Quarkonium production at CMS

10

Quarkonium production at ATLAS

11

Quarkonium production at LHCb

12

Factorization in inclusive quarkonium production

Corresponding Author: gtb@hep.anl.gov

13

Global analysis of yield and polarization of the J/ψ at Tevatron and LHC

Corresponding Author: kniehl@desy.de

Morning 2 / 14

Double-parton Fragmentation in quarkonium production

Corresponding Author: yqma.cn@gmail.com

Morning 2 / 15

Double-parton Fragmentation in quarkonium production

Corresponding Author: akl2@pitt.edu

Afternoon 2 / 16

Quarkonium production at CMS [presentation via SKYPE]

Corresponding Author: russ@heps.phys.cmu.edu

Morning 2 / 17

Quarkonium production at ATLAS

Corresponding Authors: xinchou@utdallas.edu, xinchou@ihep.ac.cn

Morning 2 / 18

News on Quarkonium production at LHCb

Afternoon 1 / 19

Factorization in inclusive quarkonium production

Corresponding Author: gtb@hep.anl.gov

Afternoon 1 / 20

Global analysis of yield and polarization of the J/psi at Tevatron and LHC

Corresponding Author: kniehl@desy.de

Afternoon 1 / 21

J/psi polarization at hadron colliders, spin correlations in P-wave charmonia, Upsilon(1S) production

Corresponding Author: ktchao@pku.edu.cn

Afternoon 1 / 22

Polarization for Prompt J/psi, psi(2S) production at Tevatron and LHC

Corresponding Author: jxwang@ihep.ac.cn

Afternoon 1 / 23

Discussion: Higher-order corrections, matrix-element extractions, and factorization

Corresponding Author: braaten@mps.ohio-state.edu

Afternoon 2 / 24

Quarkonium polarization in pp collisions at 7 TeV at CMS

Corresponding Author: zhlinl28@gmail.com

Afternoon 2 / 25

Quarkonium production at LHCb

Corresponding Author: marco.adinolfi@cern.ch

Afternoon 2 / 26

Heavy-quarkonium production at Low P_T in NRQCD with soft gluon resummation

Corresponding Author: psun@lbl.gov

Afternoon 2 / 27

Results on charmonium in pp and pPb collisions in ALICE

Corresponding Author: lbianchi@to.infn.it

Morning 1 / 28

Cyclic Wilson loops at $T > 0$

Corresponding Author: matthias.berwein@mytum.de

Morning 1 / 29

Quarkonium dissociation at high temperature

Corresponding Author: antonio.vairo@tum.de

Morning 1 / 30

Non-perturbative definition of the heavy quark potential at $T > 0$

Corresponding Author: rothkopf@itp.unibe.ch

Morning 1 / 31

Charmonium suppression in Pb-Pb collisions at CMS

Corresponding Author: hyunchul.kim@cern.ch

Morning 2 / 32

Properties of the moving quarkonium at high T

Corresponding Author: miguel.escobedo@ph.tum.de

Morning 2 / 33

Bottomonium in lattice NRQCD

Corresponding Author: skim@sejong.ac.kr

Morning 2 / 34

Y(nS) sequential melting in Pb-Pb collisions at CMS

Corresponding Author: bhong@korea.ac.kr

Morning 2 / 35

Results on charmonium/bottomonium production in PbPb collisions in ALICE

Corresponding Author: iarsene@cern.ch

Morning 2 / 36

Results from STAR

Corresponding Author: zbtang@ustc.edu.cn

Afternoon 1 / 37

Recombination and quarkonium production

Corresponding Author: zhuangpf@mail.tsinghua.edu.cn

Afternoon 1 / 38

Cold nuclear matter effects on quarkonium production

Corresponding Author: peigne@subatech.in2p3.fr

Afternoon 1 / 39

Round table: Heavy flavor suppression and transport properties

Corresponding Authors: antonio.vairo@tum.de, skim@sejong.ac.kr, miguel.escobedo@ph.tum.de, akamatsu@kmi.nagoya-u.ac.jp, matthias.berwein@mytum.de, frawley@rcf.rhic.bnl.gov, scompar@to.infn.it

Afternoon 1 / 40

In medium QCD forces at high temperatures

Corresponding Author: akamatsu@kmi.nagoya-u.ac.jp

Morning 2 / 41

$O(\alpha_s)$ corrections to $J/\psi + \chi_c$ production at B factories

Corresponding Author: fengf@ihep.ac.cn

Afternoon 2 / 42

Exclusive charmonium production processes and charmonium wave functions

Corresponding Author: braguta@mail.ru

Afternoon 2 / 43

Endpoint Logarithms in e^+e^- to $J/\psi + \eta_c$

Corresponding Author: neville@korea.ac.kr

Afternoon 2 / 44

Phenomenology and Searches for "bags" of heavy flavor states

Corresponding Author: kmy@phys.unsw.edu.au

Morning 1 / 45

Charmonia from the lattice

Corresponding Author: thomasc@maths.tcd.ie

Morning 1 / 46

Recent bottomonium lattice results

Corresponding Author: randy.lewis@yorku.ca

Morning 1 / 47

String calculation of long range $QQ\bar{q}$ potential

Corresponding Author: hector.martinez@tum.de

Morning 2 / 48

Bottomonium spectroscopy at Belle

Corresponding Author: saurabhsandilya@gmail.com

Morning 2 / 49

Quarkonium spectroscopy from CLEO-c data

Corresponding Author: kseth@northwestern.edu

Morning 1 / 50

Conventional $c\bar{c}$ and ccq searches at Belle

Corresponding Author: vishstar@gmail.com

51

Multiply charmed baryons and charmonia from the lattice

Morning 2 / 52

Lattice studies of multiply charmed baryons

Corresponding Author: gunnar.bali@ur.de

Morning 2 / 53

Symmetries of the QQQ bound states and the singlet static energy at NNLL

Corresponding Author: nora.brambilla@ph.tum.de

Morning 1 / 54

Two-loop Self Energy in Lattice NRQCD and m_b from the Upsilon Spectrum

Corresponding Author: cjmonahan@wm.edu

Morning 1 / 55

α_s , m_c , and m_b from Quarkonium Correlators

Corresponding Author: mcneile@uni-wuppertal.de

Morning 1 / 56

α_s from the static lattice potential

Corresponding Author: garcia@itp.unibe.ch

Morning 1 / 57

Recent results from KEDR

Corresponding Author: s.i.eidelman@inp.nsk.su

Morning 2 / 58

The mass of the charm quark from unquenched lattice QCD

Corresponding Author: mcneile@uni-wuppertal.de

Morning 2 / 59

Threshold production of unstable top

Corresponding Author: penin@ualberta.ca

Morning 2 / 60

The pole mass and static self-energy at large orders in perturbation

Corresponding Author: pineda@ifae.es

Morning 2 / 61

Relative phase between strong and EM decays at BES-III and CLEOc

Corresponding Author: destefan@to.infn.it

Afternoon 1 / 62

M1 transitions

Corresponding Author: pineda@ifae.es

Afternoon 1 / 63

Bc Physics at LHCb

Corresponding Author: yiming.li@cern.ch

Afternoon 1 / 64

Charmonium decays from BESIII

Afternoon 1 / 65

J/psi and hc radiative decays to etac on the lattice

Corresponding Author: francesco.sanfilippo@th.u-psud.fr

Afternoon 2 / 66

Spin singlet hadronic inclusive decays QCD and relativistic Corrections

Corresponding Author: lijinzhao86@gmail.com

Afternoon 2 / 67

Bottomonium decays at Belle

Corresponding Author: tamponi@to.infn.it

Afternoon 2 / 68

Resolving the puzzles of quarkonium eta transitions

Corresponding Author: eichten@fnal.gov

Afternoon 2 / 69

Quarkonium annihilation into photons

Corresponding Author: wlsang@ihep.ac.cn

Afternoon 2 / 70

X_b -> Upsilon(1S) + gamma decays at D0

Corresponding Author: claus.buszello@cern.ch

Morning 1 / 71

Extracting $\pi\pi$ S-wave scattering lengths from cusp effect in heavy quarkonium dipion transitions

Morning 1 / 72

Light Flavour and Heavy Quark Spin Symmetry in Heavy Meson Molecules

Corresponding Author: pavonvalderrama@ipno.in2p3.fr

Morning 1 / 73

Light quark mass dependence in heavy quarkonium physics

Morning 1 / 74

Charmonium spectroscopy at BES-III

Corresponding Author: jingzhi@ihep.ac.cn

Morning 2 / 75

X(3872) production at hadron colliders

Corresponding Author: mengce75@pku.edu.cn

Morning 2 / 76

Study of XYZ states in B decays and two photons at Babar

Morning 1 / 77

Exotic charmonia at Belle

Morning 2 / 78

Study of Y states via ISR at Babar

Corresponding Author: plewis@slac.stanford.edu

Afternoon 1 / 79

Charged bottomonium-like states at Belle

Corresponding Author: mizuk@itep.ru

Afternoon 1 / 80

Tetraquark Interpretation of the Charged Bottomonium-like states Zb and Implications

Corresponding Author: weiwang@hiskp.uni-bonn.de

Afternoon 1 / 81

X with tetraquark

Corresponding Author: alessandro.pilloni@roma1.infn.it

Afternoon 1 / 82

Remarks on hadronic molecules

Corresponding Author: c.hanhart@fz-juelich.de

Afternoon 2 / 83

Round table: XYZ: where do we stand

Corresponding Authors: nora.brambilla@ph.tum.de, remitche@indiana.edu, mizuk@itep.ru, braaten@mps.ohio-state.edu, c.hanhart@fz-juelich.de, gunnar.bali@ur.de, kniehl@desy.de, yuancz@ihep.ac.cn, yk@fnal.gov

84

Implications of a new light scalar near the bottomonium regime

Corresponding Author: baumgart@cmu.edu

Afternoon 2 / 85

Quarkonium Physics at a Fixed-Target Experiment using the LHC Beams

Corresponding Author: lansberg@in2p3.fr

Afternoon 2 / 86

Status of FAIR and PANDA

Corresponding Author: k.peters@gsi.de

Afternoon 2 / 87

Searches for Low-Mass Higgs in Upsilon decays and other BSM searches

Corresponding Author: godang@usouthal.edu

Afternoon 2 / 88

Closing Remarks

Corresponding Authors: vaia@fnal.gov, s.i.eidelman@inp.nsk.su

Morning 2 / 89

Results from PHENIX

Corresponding Author: rhollis@ucr.edu

Morning 2 / 90

Implications of a new light scalar near the bottomonium regime

Corresponding Author: baumgart@cmu.edu

Afternoon 1 / 91

Decoding the riddle of $Y(4260)$ and $Z_c(3900)$

Corresponding Author: zhaoq@ihep.ac.cn

Afternoon 2 / 92

Testing the Anomalous Color-Electric Dipole Moment of the c Quark

Corresponding Author: xwp08@mails.tsinghua.edu.cn
