

The 28th International Symposium on Lepton Photon Interactions at High Energies

Monday, 7 August 2017 – Saturday, 12 August 2017

Scientific Programme

Highlights from HEP

Higgs Physics

Electroweak and Top Physics

Physics beyond the SM

Neutrino Physics

QCD and Hadron Physics

Flavor Physics

Heavy Ion Physics

Dark Matter

Astroparticle Physics

Gravitational Waves

Inflation, CMB and Dark Energy

Future Facilities in HEP and Beyond
