

# Status report on $H \rightarrow \mu^- + \mu^+$ at CEPC

Zhenwei Cui

2017/10/16

After Increasing the number of background, the shape changes less.

BKG component	N_signal (58)
ZZ,SZ,WW	60
zzorww,zz,sz,ww	68
zzorww,zz,sz,ww,2f	69
zzorww (2) ,zz,sz,ww,2f	67
zzorww (3) ,zz,sz,ww,2f	65

Signal and background data are included. And using  $f_s$  and  $f_B$  to fit the data.  
 The zzorww BKG may be the bulge' s major contribution.  
 And the strength of the signal may not be mentioned.
