FANGYI GUO

Working status

VBF Higgs CP-mixing

- Sample:

Connected Run2 hgg derivation convenor

Go back to EVNT.root and create a TRUTH1 derivation by myself, and then apply ATLAS official simulation and reconstruction.

(still have bug here: It seems lake of some config parameter)

CP::TPileupReweighting... ERROR Unrecognised periodNumber: 345041

- Hypo test:

Roostat tutorial seems have no likelihood function value calculation demo.

How to define my own likelihood function
(2 or even 3 dimension: OO, $m_{\gamma\gamma}$, BDT)
