2019/10/18

Expected function

- MOST2, (future HGTD) module assembly
 - 1.Vacuum handle
 - 2.Gas pump module for glue
 - 3.Micron level precision movement hand
 - 4.Micron level resolution HD camera
 - 5.All module control in one system

Supplier company

- 1.北京瑞邦精控科技有限公司
 - The price will increase by more than 0.9 million RMB.
 - Have certain customization capabilities
- 2.Aerotech Company
 - No customization capabilities.
 - A moving system already beyond 1.2 million RMB.

Next step

- Invited Aerotech agent to IHEP next Monday 14:00 A511.
- Getting contact to Oxford people.
- Learn more(where and when buy, who design) about other functional tools and software system.

Thanks for your listening!
