

The 10th International Workshop on Air Shower Detection at High Altitudes

Thursday, 9 January 2020

Diffuse gamma-rays & CR spectrum - Zijin Hall, first floor (16:20 - 18:05)

-Conveners: Zhongxiang Wang

time	[id]	title	presenter
16:20	[28]	Diffuse gamma-ray emission from the Galaxy in the energy range above 1 TeV	Dr SEMIKOZ, Dmitri
16:50	[40]	Perspective of detecting very high energy gamma ray photons associated with neutrinos by LHAASO	HE, Haoning
17:15	[29]	Measuring simultaneously the cosmic ray composition and hadronic interaction properties	BELLIDO, Jose
17:40	[41]	The cosmic ray proton spectrum measured by DAMPE satellite	YUE, Chuan
