

The 10th International Workshop on Air Shower Detection at High Altitudes

Thursday, 9 January 2020

CR anisotropy and turbulence - Zijin Hall, first floor (14:00 - 15:50)

-Conveners: Ruoyu LIU

time	[id]	title	presenter
14:00	[24]	Constraining microscopic plasma process by precision measurement of cosmic rays	YAN, Huirong
14:30	[26]	TeV cosmic ray anisotropy in the local interstellar medium	Prof. ZHANG, Ming
15:00	[27]	MHD-PIC Method and its Astrophysical Applications	BAI, Xuening
15:25	[42]	Particle acceleration at merger shocks in galaxy clusters	Dr NIEMIEC, Jacek
