

$D_s^* \rightarrow \phi$ form factors and the exclusive D_s^* weak decays

Friday, 12 November 2021 17:20 (20 minutes)

We present the QCD calculation of the $D_s^* \rightarrow \phi$ helicity form factors from the light-cone sum rules approach, with which we study the exclusive D_s^* weak decays and discuss the experimental potential.

Presentation type

Oral
