

# 第六届中国LHC物理会议 The 6th China LHC Physics Workshop (CLHCP2020)

Sunday, 8 November 2020

Parallel Session: Heavy Flavor/Heavy Ion (14:00 - 16:00)

-Conveners: Guang-You Qin

| time  | [id]  | title  | presenter          |
|-------|-------|--|--------------------|
| 14:00 | [111] | Beauty production in Pb-Pb collisions with ALICE   | PENG, xinye        |
| 14:18 | [112] | Measurements of semi-inclusive recoil jet production in pp and Pb-Pb collisions with ALICE                         | 曹, 小杰<br>曹小杰, 曹小杰  |
| 14:36 | [113] | Investigation on identified particle spectra in Pb-Pb and p-Pb collisions with a modified Tsallis blast-wave model | 车, 国荣              |
| 14:54 | [114] | Recent heavy ion results with the CMS experiment   | Dr CHAPON, Emilien |
| 15:12 | [115] | Open and hidden heavy flavor production vs multiplicity in small systems   | DING, Yanchun      |
| 15:32 | [116] | Low-pT di-muon pair production in Au+Au collisions   | ZHOU, Jian         |
