

第六届中国LHC物理会议 The 6th China LHC Physics Workshop (CLHCP2020)

Sunday, 8 November 2020

Parallel Session: Heavy Flavor/Heavy Ion (16:20 - 18:23)

-Conveners: 松 张

time	[id] title	presenter
16:20	[117] Production of strange particle in jet and UE in pp, p-Pb and Pb-Pb with ALICE	CUI, Pengyao
16:38	[118] Charmed baryon production from small to large systems	朱, 剑辉
16:56	[119] Review of global polarization and spin alignment measurements in ALICE and STAR	ZHOU, Chensheng
17:14	[120] Threshold resummation for CGC hadron production	昊昱, 刘
17:32	[121] Study of non-linear components of flow harmonics	ZHAO, Mingrui
17:50	[122] Recent results on flow vector fluctuation with ALICE detector	ZHU, Ya
18:08	[123] Study on electroweak bosons with ALICE	卢, 志永
