Weekly report

FANGYI GUO

Working status

QT: got some feedback from PhotonID group
- ◦ llg MC is generated with pT_y, but still need a pT cut.
- ◦ Cross-check in RadiativeZ framework: lost too much events.
- ◦ Apply a tighter cut and then see s/b comparison.

VBF Higgs CP:
- ◦ Dealing with syst. term in purity. Plan to finish it within National Holiday.
- ◦ After that I might pause in this to prepare CEPC workshop and QT.

CEPC CP
- ◦ Need some further understanding about theory.
