

The 2nd workshop on Material Development for the Homogeneous Hadronic Calorimeter Detector Concept

Contribution ID: 7

Type: **not specified**

Status of Scintillating Ceramics and Glasses at SIC and their potential applications for the HHCAL Detector Concept

Sunday, 9 May 2010 15:50 (30 minutes)

Summary

Research development of potential scintillation materials of Ce doped YAG and LYAG scintillation ceramics and bismuth silicated based scintillation glasses in SIC will be introduced and discussed in the concept of HHCAL detector.

Primary authors: Prof. ZHAO, Jing-Tai (Shanghai Institute of Ceramics); Prof. PAN, Yu-Bai (Shanghai Institute of Ceramics)

Co-authors: Ms WANG, Chen-Yang (Shanghai Institute of Ceramics); Dr SHI, Yun (Shanghai Institute of Ceramics)

Presenter: Prof. ZHAO, Jing-Tai (Shanghai Institute of Ceramics)

Session Classification: Session III
