

Multimessenger signals from transients in AGN accretion disks

Thursday, 16 June 2022 17:10 (15 minutes)

In this talk, I will introduce our recent works on the predictions of the multimessenger signals from transients in AGN accretion disks.

Topic

多信使天文学与多波段联合观测

Primary author: 朱锦平 (北京大学)

Presenter: 朱锦平 (北京大学)

Session Classification: Session IV
