Weekly update

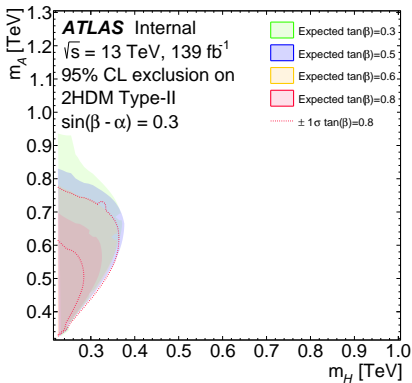

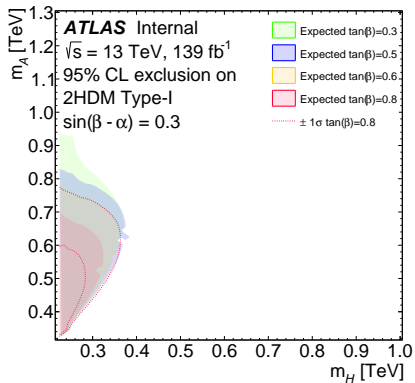

Abdualazem Fadol

September 5, 2022

Upper limits for the $A \rightarrow ZH \rightarrow 4\ell + X$

- Upper limits at 95% CL between [0.09 - 0.30] fb

- Managed to get the AZH upper limits and exclusion plots.
- Will be working on the limit for the RSH this week and finalise the exclusion plots.
- Also, I'll be working on the polishing the note in parallel.
- I had a chat with the conveners last week and we agreed to upload the note by the end of this week.
- IHEP account expires: surprisingly without any warning!
