Searches for additional heavy Higgs bosons at CMS

Tuesday, 28 November 2023 12:10 (15 minutes)

Searches for additional Higgs bosons with mass above 125 GeV are presented, using the Run-2 data set collected by the CMS experiment. A variety of processes and final states ($A \rightarrow \tau\tau/b\bar{b}$, $Z^* \rightarrow h/H$, $A \rightarrow Zh$, ...) are discussed.
