

# The 29th International Workshop on Weak Interactions and Neutrinos

Wednesday, July 5, 2023

Parallel talks 3: Neutrino Physics - Room C203, Haiqin Building #6 (2:00 PM - 3:40 PM)

-Conveners: Fei Gao

time	[id]	title	presenter
2:00 P	M19]	First Physics Results from the FASER Experiment	HU, Zhen
2:25 P	M46]	A study of time variations of solar neutrino flux using 5,804 live days of Super-Kamiokande data (remote)	YANG, Jeong Yeol
2:50 P	M240]	T2K latest neutrino oscillation results	LI, Weijun
3:15 P	M4]	The European Spallation Source neutrino Super Beam plus Project	Dr TOLBA, Tamer
