

The 7th Symposium on “Symmetries and the emergence of Structure in QCD”

第七届强相互作用量子色动力学对称性及其物质结构学术研讨会

Friday, 21 July 2023

Session 4 (14:30 - 16:00)

-Conveners: F.-K. Guo

time	[id]	title	presenter
14:30	[20]	Partial width from the analytical extension of the wave function: Pc states	LIN, Z.-Y.
14:45	[21]	Tetraquark bound states in quark potential models	CHEN , Y.-K.
15:00	[22]	Baryons and Tetraquark States with Diffusion Monte Carlo Method	MA, Y.
15:15	[23]	Chromopolarizabilities of fully heavy hadrons	DONG , X.-K.
15:30	[24]	Understanding the 0^{++} and 2^{++} charmonium(-like) states near 3.9 GeV	JI , T.
15:45	[25]	The effect of the short-range contribution of the one-boson exchange model on the hadronic molecular picture for pentaquarks	YALIKUN , N.
