

# The 2023 International Workshop on the High Energy Circular Electron Positron Collider

Tuesday, 24 October 2023

Gaseous Detector: 1 - CEPC Room 2 (16:00 - 18:00)

-Conveners: Yi Wang; Shikma Bressler

time	[id]	title	presenter
16:00	[368]	Pixelated TPC technology for the future e+e- collider	JOCHEN, Kaminski
16:25	[369]	Study of TPC detector's distortion at e+ e- collider	ZHAO, Mingrui
16:50	[370]	Status report about the drift chamber project for the future collider	DE FILIPPIS, Nicola
17:15	[371]	Overview of MRPC based ToF systems developed in JINR	BABKIN, Vadim

## Wednesday, 25 October 2023

### Gaseous Detector: 2 - CEPC Room 2 (09:00 - 10:40)

-Conveners: Huirong Qi; Zhi Deng

time	[id] title	presenter
09:00	[375] Update progress of TPC R&D for CEPC	QI, Huirong
09:25	[373] Micromegas application for TPC and Muon	ZHANG, Zhiyong
09:50	[372] Progress of the high time precision MRPC	KAI, sun
10:15	[374] Ion suppression using graphene foil	Dr JIA, Kang

### Gaseous Detector: 3 - CEPC Room 2 (11:00 - 12:40)

-Conveners: Huirong Qi; Wang Yi

time	[id] title	presenter
11:00	[378] The upgraded TPC detector for ALICE in LHC Run 3	BAI, Xiaozhi
11:25	[377] Status and progress of the pad readout TPC prototype on CEPC	SHE, Xin
11:50	[376] Progress on FEE readout for CEPC TPC	LIU, Canwen
12:15	[379] Two track separation of detector
