QCD电磁信号 (09:00 - 12:15)

time	[id] title	presenter
09:00	[15] Experimental measurements of photon induced reactions in heavy-ion collisions	唐泽波
09:25	[17] Probing the isobaric Ru and Zr nuclear structure with the diffractive photoproduction of ρ^0 mesons	赵杰
09:50	[18] Azimuthal asymmetry in UPCs: theoretical aspect	周雅瑾
10:15	[20] Study on Breit-Wheeler process at RHIC	王晓凤
10:40	茶歇	
11:00	[16] Experimental findings on the carrier of baryon number from RHIC BES-I and isobar data	许长补
11:25	[19] Measurements of electrons from open heavy flavor hadron decays at RHIC	张生辉
11:50	[21] Measurement of thermal dileptons in heavy-ion collisions	王桢
