

14th Workshop of the France China Particle Physics Laboratory (FCPPL2023)

Nov 6 – 10, 2023

Institut Franco-chinois de l'Energie Nucléaire, SYSU Zhuhai Campus

WELCOME TO ZHUHAI!

欢迎来到珠海!

At last! FCCPL is fully back!

After a lengthy period of time during which covid prevented us to come see each other... it is so wonderful to see you so numerous in person!

FCCPL is now fully back,

Let's take this as a true rebirth of sort! 😊
and an opportunity to make it even better

So let's use it to collaborate

- to the full extent of our common current projects,
- to keep always developing new ones,
- to keep always better knowing each other, and sharing and appreciating our cultures so as to contribute as well, at our humble level, to make a better world for our generation and the generations to come... 😊

Numbers and Facts

- **Web site (TWiki):** fcpppl.in2p3.fr
Mailing-list: FCPPL-L@in2p3.fr (466 members!)
- **Funding:** ~ 200k€/yr (FR/CH ~ 1)
for mobility and exchange - *all sources included*
- **Yearly Workshop:**
 - **100+ participants**
lively, dynamic and friendly community
 - Includes Steering Committee meeting

FCPPL Workshop
Wuhan, 03/2009

Beijing (IHEP), 12/2006
(to prepare FCPPL)

Marseille, 01/2008

Wuhan, 03/2009

Lyon, 04/2010

Jinan, 04/2011

Orsay-Saclay, 03/2012

Nanjing, 03/2013

Clermont-Ferrand, 04/2014

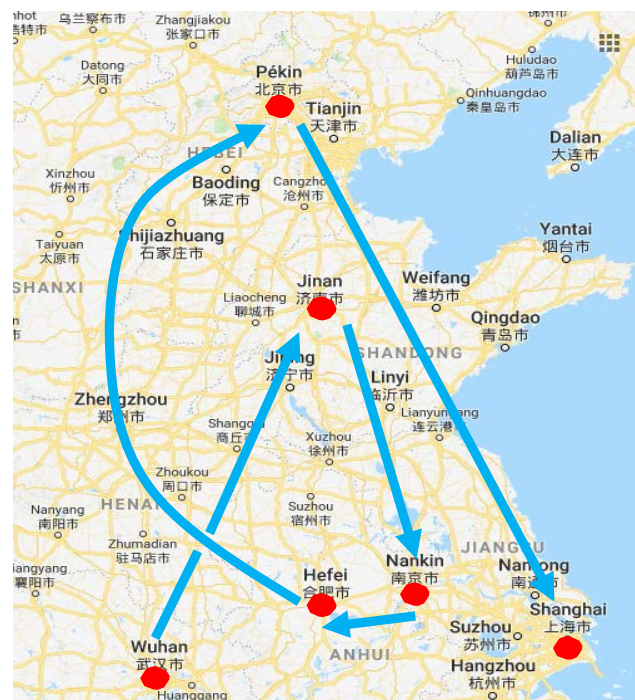

Hefei, 04/2015

Strasbourg, 03/2016

Beijing (THU), 03/2017

Marseille, 05/2018

Shanghai, 24-27/04/2019

Zoom, 13-16/12/2021

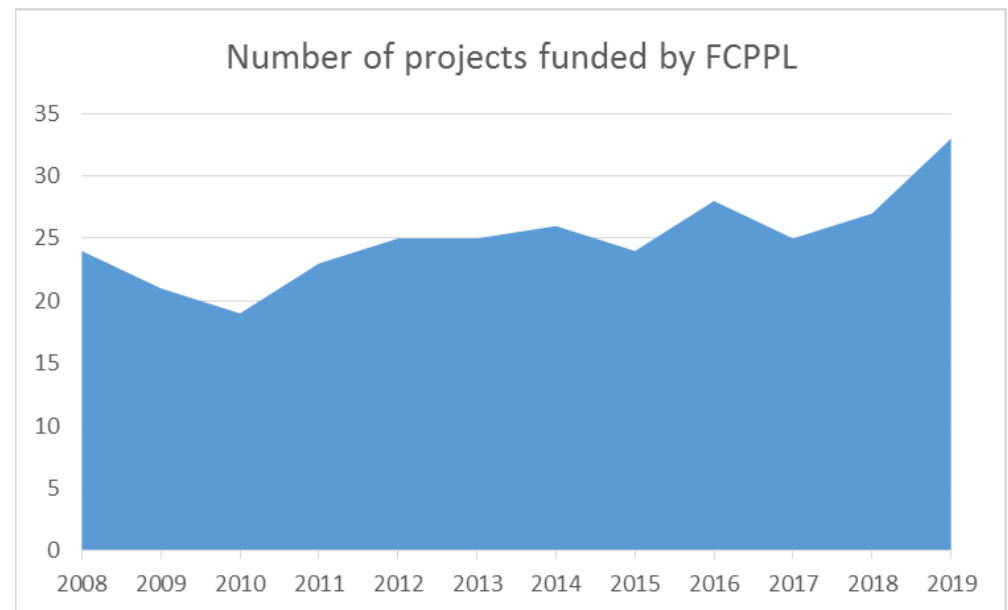

Zhuhai, 6-10/11/2019

A (stronger) participation of the French Universities involved would be highly appreciated!

- AMU: 10k€/yr to FCPPL
- UCBL, UniStra, UCA ~3-4k/yr each directly to projects related to them
- What about the other 9 universities and schools involved?

Items of interest

- Thank you so much for coming numerous to the workshop
 - Over 100 registered participants (including 25 from France + some connected remotely)!
- **2023 Call for Proposals**
 - 29 projects supported: we're back on track!

Items of interest

Gang successfully managed to get funding from the MoST:

- The project France China Particle Physics joint Lab (FCPPL) is granted by the MoST, with a budget of 4 million Chinese yuan over a period of three years (Jan. 2023 to Dec. 2025)
- The main goal is to establish a joint lab “with walls”: Personal communications and exchanges will be supported. The main areas of collaboration are LHC, future colliders, JUNO etc., other fields of collaboration are not excluded.

Draft agenda of the Steering Committee

- FCPPL Status report
- LIA agreement renewal
 - Two intertwined CNRS collaborative tools IRN + IRL to keep an active support to FCPPL to projects in general an increase possibility of extra funding
- Paths for improvement?
- Location of the next FCPPL Workshop
- Location of the next CEPC Workshop EU Edition
- AOB

Thank you very much

**To our SYSU colleagues for hosting the
14th edition of the FCPPL Workshop!**

**To CAS, MoST and universities,
and to the French Embassy and CNRS/IN2P3 for their
support!**

To the LOC for organizing the event on site!

To the SOC for putting together a great programme!

**We wish you all
a very pleasant and fruitful stay in Zhuhai!**
