”Investigation of a three-body system with Dunkl operator and considering some new transitions”

Wednesday, 25 September 2024 10:00 (30 minutes)

After obtaining eigenvalues and eigenfunctions of a particle in a one dimensional box in the presence of Dunkl operator, we expand the calculations for a three-body systems and for two different Fermion case and Boson case we discuss some new transition that have not seen before.

Primary authors: Dr CHEN, Hao (Zunyi Normal University,); Prof. KRIZ, Jan (University of Hradec Králové,)

Co-author: HASSANABADI, Hassan (Shahrood University of Technology)

Presenter: HASSANABADI, Hassan (Shahrood University of Technology)

Session Classification: Parallel 7: Interdisciplinary aspects of few-body physics and techniques

Track Classification: Interdisciplinary aspects of few-body physics and techniques
