海报展示 (16:00 - 16:30)

time	[id]	title	presenter
16:00	[73]	Study of possible DND^* states	MONTESINOS, Victor
16:00	[74]	Study of the decay $D^0 \rightarrow K^+ K^- \eta$	RAHMANI, Sara
16:00	[75]	A Lattice QCD study of the low-energy interactions of doubly charmed baryons	义景宇
16:00	[76]	Pion-Nucleon Scattering with Decuplet Contribution in SU(3) Chiral Perturbation Theory	欧阳菁
16:00	[77]	Isospin-breaking contribution to the model-independent axion-photon-photon coupling in U(3) chiral theory	郝津
16:00	[78]	Axion-pion scattering at finite temperature in chiral perturbation theory and its influence in axion thermalization	王金葆
16:00	[79]	The evaluation of the relativistic chiral nuclear force using the Nuclear Force nucleon-nucleon scattering observables	温叶斌
16:00	[80]	Production of Exotic States in Electron-positron Collisions Based on a Transport and Coalescence Model	褚胤涵
16:00	[81]	Theoretical interpretation of the $\Xi(1620)$ and $\Xi(1690)$ resonances seen in $\Xi_c^+ \rightarrow \Xi^- \pi^+ \pi^+$ decay	李海鹏
16:00	[83]	Revisiting O(N) σ model at unphysical pion masses and high temperatures	吕源林
