

# The 2024 International Workshop on the High Energy Circular Electron Positron Collider

Friday, 25 October 2024

Gaseous Detector: I - Room 287 (09:00 - 10:32)

time	[id] title	presenter
09:00	[31] Progress of CEPC TPC Towards the TDR	QI, Huirong
09:18	[259] Status of CEPC DC	DONG, Mingyi
09:36	[99] Large Area GEM Production at Peking University	WANG, Dayong
09:54	[79] TMM: Triple Micro-Mesh gaseous structure with ultralow ion backflow for gaseous photon detectors	LIANG, Kunyu
10:12	[260] High time resolution RPC R&D (TBC)	

Gaseous Detector: II - Room 287 (11:00 - 12:30)

time	[id] title	presenter
11:00	[261] MPGD technology R&D in China	LI, Xiaomei
11:18	[262] Needed R&D for running a TPC at a circular collider	COLAS, Paul COLAS, Paul
11:36	[263] Update of the IDEA drift chamber	GIACOMELLI, Paolo
11:54	[264] ALICE TPC R&D (TBC)	
12:12	[265] GridPix readout TPC R&D	KLUIT, Peter
