

The 2nd LHAASO Symposium

Friday, 21 March 2025

Friday Afternoon A (14:00 - 16:00)

-Conveners: Zhe Li

time	[id] title	presenter
14:00	[122] Probing extreme particle acceleration in the SNR G106.3+2.7 region with LHAASO	WU SHA
14:20	[123] LHAASO observation towards the young supernova remnants Cas A and Tycho	ZHANG, Xiao
14:40	[124] Using LHAASO data to constrain the presence of hadronic Cosmic Rays in pulsar environments	MITCHELL, Alison
15:00	[125] Interpreting the Galactic diffuse emission from GeV to PeV	PERON, Giada
15:20	[177] Non-thermal emissions from the Galactic magnetized halo powered by Galactic outflows	ZHANG, Heshou
15:40	[178] Galactic center and large scale diffuse X-ray emission	PONTI, G.
