

Light QCD exotic states

Report of Contributions

Contribution ID: 1

Type: **not specified**

Triangle Singularity in Isospin Breaking Process $J\psi \rightarrow \Lambda \bar{\Lambda} \pi$

Friday, 18 October 2024 14:00 (30 minutes)

Presenters: WU, Jia-Jun (IHEP); 吴, 佳俊 (University of Chinese Academy of Sciences)

Session Classification: Light QCD exotic states

Contribution ID: 2

Type: **not specified**

Dispersive analysis of $\eta(1405/1475)$ on the recent BESIII measurement of $J/\psi \rightarrow \gamma K \bar{K} \pi$

Friday, 18 October 2024 14:30 (30 minutes)

Presenter: QIU, Lin (高能所)

Session Classification: Light QCD exotic states

Contribution ID: 3

Type: **not specified**

Light molecular mesons with exotic and ordinary quantum numbers

Friday, 18 October 2024 15:00 (30 minutes)

Presenter: GUO, Feng-Kun (ITP, CAS)

Session Classification: Light QCD exotic states

Contribution ID: 4

Type: **not specified**

Unflavoured and Strange Mesons and Exotics - New Results and Methods

Friday, 18 October 2024 16:00 (30 minutes)

Presenter: PAUL, Stephan (Technical University of Munich)

Session Classification: Light QCD exotic states

Contribution ID: 5

Type: **not specified**

Fully strange tetraquark resonant states as the cousins of X(6900)

Friday, 18 October 2024 16:30 (30 minutes)

Presenter: MA, Yao

Session Classification: Light QCD exoitc states

Contribution ID: 6

Type: **not specified**

Recent results of spin-exotics at BESIII

Friday, 18 October 2024 17:00 (30 minutes)

Presenter: LIU, Beijiang (高能所)

Session Classification: Light QCD exoitc states

Contribution ID: 7

Type: **not specified**

Open charm tetraquarks

Friday, 18 October 2024 17:30 (30 minutes)

Presenter: MAIANI, Luciano

Session Classification: Light QCD exoitc states
