Theoretical Physics

introduction

- One of China's major theoretical research group
- Frequent communication and collaboration with other research institution
- **24 Faculty members + 3 Secretaries**
- **~ 50 Ph.D students**
- **~ 10 Postdocs**

Current Research Interest

- **Neutrino Physics**

Xun-Jie Xu

Shun Zhou

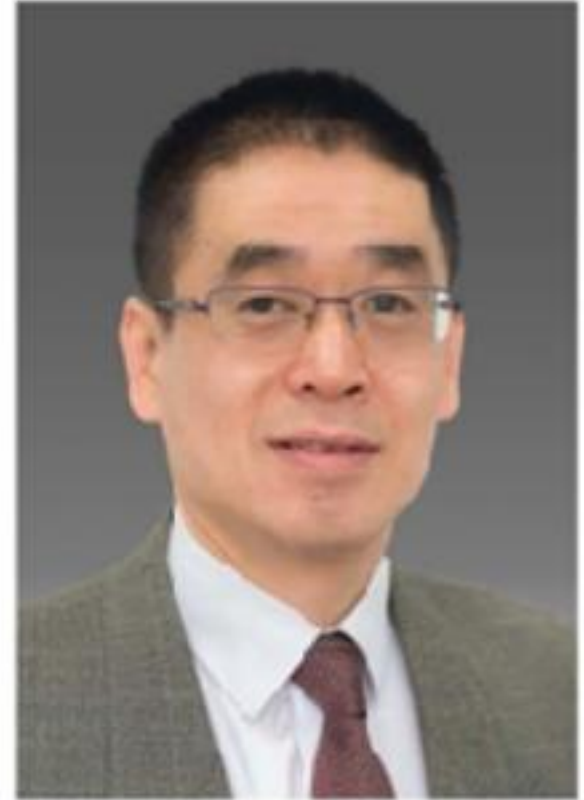

Zhi-Zhong Xing

Current Research Interest

- **Heavy Flavor**

Yu Jia

Cai-Dian Lü

Current Research Interest

- **TeV Physics**

Zhao Li

Bin Yan

Hao Zhang

Tao Liu

Current Research Interest

- **Cosmology**

Xin-Min Zhang

Jing Ren

Sai Wang

Current Research Interest

- **Lattice QCD**

Ying Chen

Zhao-Feng Liu

Ming Gong

Current Research Interest

- **QCD precision calculation**

Jian Xiong Wang

Bin Gong

Current Research Interest

- **Garavity**

Zhe Chang

Yi Ling

Current Research Interest

- **hadron physics**

Yu-Bing Song

Ping Wang

Qiang Zhao

Position description

All fields of Theoretical Particle Physics and related fields, including:

- QCD / **Electroweak**
- Cosmology / **Gravity**

Recently also quantum computing,

Ying-Ying Li just joined

Benefits and opportunities

- Tenure track position for young scientists, Tenure for senior
- **Salary according to IHEP salary system. (~0.5M annual salary)**
- Conducting Ph.D students
- **Up to 3 months visits to other institution per year**
- Help to apply for research funds

Candidate requirement for Faculty position

- **Ph.D**
- **Preferably Postdoc Experience**

A number of postdoc positions available every year!

Short term visits/Sabbatical leave (with local support) are also welcome!

Welcome to apply!
