

The 2025 International Workshop on the High Energy Circular Electron
Positron Collider

Contribution ID: 351

Type: **not specified**

**[C04] HVCMOS Pixel Sensor in 55nm Process:
Readout Architecture Simulation, Hit Loss Analysis,
and Data Transmission Optimization**

Friday, 7 November 2025 19:03 (1 minute)

Presenter: ZHANG, Xiaoxu (南京大学)

Session Classification: Poster
