

**The 2025 International Workshop on the High Energy Circular Electron
Positron Collider**

Contribution ID: 352

Type: **not specified**

**[C05] A low-power 55 nm HV-CMOS pixel sensor
readout architecture for the CEPC Inner Tracker**

Friday, 7 November 2025 19:04 (1 minute)

Presenter: YAN, Bingchen (高能所)

Session Classification: Poster
