

The 2nd International Workshop on Physics at High Baryon Density (PHD2025, 第二届高重子密度物理国际研讨会)

Friday, 17 October 2025

Nuclear matter properties and strong interaction research - Conference Room at 1st floor (14:00 - 15:55)

-Conveners: Yifei Zhang

time	[id] title	presenter
14:00	[22] Study of high-density matter in neutron stars via hypernuclear experiments	TAMURA, Hirokazu
14:30	[23] Search for baryon junction with heavy ion collisions at RHIC energies	TANG, Zebo
15:00	[24] Novel approaches to the Internal structure of exotic hadrons	WANG, Qian
15:30	[25] Residual 3rd-body coulomb effect on identical charged pion correlations in Au+Au collisions at STAR	LUONG, Vinh
