

# The 2nd International Workshop on Physics at High Baryon Density (PHD2025, 第二届高重子密度物理国际研讨会)

Saturday, 18 October 2025

Experiments in STAR (10:40 - 12:10)

-Conveners: Guo-Liang Ma

time	[id]	title	presenter
10:40	[33]	Recent STAR results on strangeness production in heavy-ion collisions	ZHOU, Yingjie
11:10	[34]	Overview of the chiral magnetic effect and outlook to the STAR high-statistical new data”	FENG, Yicheng
11:40	[35]	Baryon density-driven novel phases in QCD: resonant screening, rotation-induced confinement, and quantum criticality	HUANG, GUOJUN
