

17th International Conference on Heavy Quarks and Leptons

(HQL 2025)

Monday, 15 September 2025

Spectroscopy (11:00 - 12:35)

time	[id]	title	presenter
11:00	[23]	Theoretical review on light meson and heavy hadron spectroscopy	ZHAO, Qiang
11:25	[25]	Recent spectroscopy results from LHCb experiment	REN, Zan
11:50	[26]	Recent spectroscopy results from BESIII experiment	ZHANG, Yateng
12:15	[24]	Light and Strange Meson Spectroscopy: New Results on Exotic and High-Mass Mesons from the COMPASS Experiment	PAUL, Stephan

Thursday, 18 September 2025

Spectroscopy (14:30 - 16:05)

time	[id]	title	presenter
14:30	[62]	Physics of multiquark states	GUO, Feng-Kun
14:55	[63]	Recent spectroscopy results from Belle II experiment	YIN, Junhao
15:20	[64]	Recent spectroscopy results from ATLAS and CMS experiment	HU, Zhen
15:45	[65]	Recent results on heavy quarks and leptons from Alice experiment	BAI, Xiaozhi

Spectroscopy (16:35 - 17:00)

time	[id]	title	presenter
16:35	[66]	Prospect of hadron spectroscopy at future experiments	LIU, Beijiang
