

# 17th International Conference on Heavy Quarks and Leptons (HQL 2025)

## Wednesday, 17 September 2025

### Kaon physics (09:00 - 10:30)

-Conveners: Francesco Brizioli

time	[id] title	presenter
09:00	[45] Constraints from kaon physics and complementarity to other rare decay channels	FENG, Xu
09:25	[46] Status and future prospects for rare kaon decay measurements at NA62	FIORENZA, Renato
09:45	[47] Status and future prospects for rare kaon decay measurements at KOTO(-II)	SHIRAISHI, Ryota
10:10	[48] Status and future prospects for rare kaon decay measurements at LHCb and other LHC experiments	GARCIA MARTIN, Luis Migue1

### Kaon physics (11:00 - 11:30)

-Conveners: Francesco Brizioli

time	[id] title	presenter
11:00	[49] Long-distance contributions to Kaon decays on the lattice (rare Kaon L and SL decay, QED effects, radiative decays)	CHAO, En-Hung
