

## Summary and Highlights of the 13th MicroTCA Workshop at DESY in Hamburg

*Monday, 15 September 2025 14:10 (20 minutes)*

In December 2024, the 13th “MicroTCA Workshop for Industry and Research” took place at DESY, Hamburg, Germany - more than 180 participants from 26 institutes and 25 companies joined the workshop. In 36 talks, hardware, firmware and software solutions have been presented and discussed. Also, for the first time, a pre-workshop on design rules and recommendations for MicroTCA hardware development was given, which was well-received by an expert auditorium. The presentation summarises the most critical R&D work carried out, informs you on the MicroTCA community's focuses, and highlights some of the key presentations from the 3-day workshop.
