

The latest developments in the MTCA.4 architecture and corresponding thermal solutions

Wednesday, 17 September 2025 09:20 (15 minutes)

Big Science projects require equipment platforms to achieve higher performance, precision, stability, and can be deployed in a smaller space. The corresponding MTCA.4 standard has been upgraded. This article will focus on the latest upgrades to the MTCA .4 standard in terms of base platforms, as well as the development of corresponding thermal solutions.
