

# QWG 2013 at IHEP - Beijing

- Wonderful and very productive gathering
- Many well prepared talks and round tables
- Lots of new and exciting experimental results and theoretical calculations [ $Z_c(3900)$ , quantum numbers of  $X(3872)$ , spin-parity of  $Z_b$ ,  $\chi_{b1}(3P)$ , observation of  $B_c$  to several decay channels, onia samples at very high  $p_t$  at LHC, discovery of long sought  $c\bar{c}$  ( $3D_2$ )....]
- Lots of very useful coffee break and lunch discussions

# Thank you!!

- All Participants
