

# IHEP MeV Mission Workshop (Science and Instruments)-2025

## Wednesday, 17 September 2025

Session2 - 305 (09:00 - 13:00)

| time  | [id] | title                                    | presenter        |
|-------|------|------------------------------------------|------------------|
| 09:00 | [12] | Brief introduction to VLAST              | YUAN, Qiang      |
| 09:20 | [13] | MeGaT experiment                         | YANG, Ruizhi     |
| 09:40 | [14] | MeVGRO mission                           | PENG, Wenxi      |
| 10:00 | [15] | PAIRS introduction and plan              | DAI, Kangyan     |
| 10:20 | [16] | CZT Detectors for MeV Astronomy          | ZENG, Ming       |
| 10:40 | [17] | Gamma-ray Converter tracker on MeVGRO    | GONG, Ke         |
| 11:00 | [18] | TES detectors development for PAIRS      | ZHANG, Yifei     |
| 11:20 | [19] | Laue Optics for high energy astrophysics | JIANG, Weichun   |
| 11:40 | [20] | CPRE series ASIC                         | LIAO, Hao1ong    |
| 12:00 | [21] | Data analysis and background issues      | Dr DIEHL, Roland |
| 12:20 | [22] | workshop_summary                         |                  |
