

## 2026年新物理前沿与交叉科学研讨会 (NPhIS 2026)

Monday, 18 May 2026

Plenary - 13 - 二楼宴会厅 (15:40 - 17:45)

-Conveners: 昊 ZHANG

time	[id] title	presenter
15:40	[41] Gauge-invariant analysis of curvature perturbations from slow first-order phase transitions	Dr DING, Ran
16:05	[8] Graph Path Likelihood for Galaxy Formation on Layered Halo Graphs	YANG, Daneng
16:30	[9] Same-sign dimuon probe of charged lepton flavor violation at electron-photon colliders	WANG (王), Zeren Simon (泽人)
16:55	[38] Long-lived particle searches at FASER and future machines	SU, Wei
17:20	[45] Connecting Leptogenesis with Observable Gravitational Waves	LIU, Wei (刘威)
