⌘ VENUE
Sun Yat-sen University
Shenzhen Campus · Guangdong, China

HOSTED BY
School of Science, Sun Yat-sen University
SHENZHEN CAMPUS

WORKSHOP OBJECTIVES

- Exchange progress and practical experience in AI, quantum computing, and advanced computing for high-energy physics and related fields.
- Strengthen the domestic community through cross-institution collaboration and a healthy research ecosystem.
- Review key advances in AI and quantum technologies, and discuss their applications in high-energy physics.
- Organize challenge-style benchmark tasks to promote reproducible and comparable methods.
