The 7th Sino-Thai Symposium on High Energy Physics, Astrophysics, Materials Science and Beyond (STSP2026)

October 11-15 2026, Guilin, China

First Circular

General information

The 7th Sino-Thai Symposium on High Energy Physics, Astrophysics, Materials Science and Beyond (STSP2026) will be held in **Guilin, China**, in the period of **11-15 Oct. 2026**, under the organization of Guangxi Normal University (GXNU) and Suranaree University of Technology (SUT).

The cooperation in science and technology between China and Thailand has a long, fruitful, and healthy history. STSP is a series of symposiums organized since 2011, with the aim to strengthen this bilateral relationship by fostering in-depth scientific collaboration in high energy physics, astrophysics, and related fields that align with the common interests of both nations. The STSP has served as a unique venue for researchers from China and Thailand to exchange knowledge, present cutting-edge results, and build a lasting network among physicists. This 7th edition continues that tradition, providing a platform for new ideas and partnerships.

The main topics of STSP2026:

- LHC theory and experiments
- Phenomenological particle physics
- Astronomy, astrophysics and cosmology
- Computational physics and data analysis
- Accelerator physics and engineering
- Computational physics and data analysis
- Effective field theory
- Nuclear physics and nuclear technology
- Neutrino physics
- Materials Science & Engineering
- Others

Organizing Committee

Wei-Hong Liang (Chair, GXNU)
Ayut Limphirat (Co-chair, SUT)
Santi Maensiri (SUT)
Yupeng Yan (SUT)
Jun-Hui Hu (GXNU)
Dai-Hui Wei (GLNU)
Dai-Mei Zhou (CCNU)
Chu-Wen Xiao (GXNU)
Yun Guo (GXNU)
Wen-Bin Cao (USTB)

Shengbang Qian (YNU)　　Boonraksa Soonthornthum (NARIT)

Qiang Zhao (CAS-IHEP)
