Session

14:00–14:30 **S-matrix bootstrap bounds on self-interacting dark matter**

Speaker
□□

14:30–15:00 **A Near-Cutoff Waveguide Haloscope for sub-meV Dark Matter**

Speaker
□□□

15:00–15:20 **Two-loop beta functions for the Bosonic SMEFT**

Speaker
□□□

15:20–15:40
A universal probe of QCD chiral symmetry breaking from fragmentation energy correlator

Speaker
□□□

15:40–16:00
Polarization and correlation effects in γγ→W−W+ at NLO Electroweak Accuracy

Speaker
