

EPC Seminar

Higgs Physics @ 100 TeV

Speaker: Prof. Ian Low (Northwestern University & Argonne National Lab)

Time: 11:00 am, June 26, 2014

Place: Room B324

Organized by the Experimental Physics Center

Abstract:

I will give an overview on our current understanding of the 125 GeV Higgs boson and discuss physics opportunities associated with the Higgs boson at a future 100 TeV proton-proton collider.

*****Pizza and drinks will be served after the seminar.*****
