

Strangeness Nuclear Physics 2014

Friday, 12 December 2014

12A1 (09:00 - 10:40)

-Conveners: Jean-Marc Richard

time	[id]	title	presenter
09:00	[11]	Progress on Hyperon Resonances	Prof. ZOU, Bing-Song
09:25	[12]	Extraction of the two Lambda(1405) poles from photoproduction data and hints for an I=1 state around the Kbar N threshold	Prof. OSET, Eulogio
09:50	[13]	Production mechanisms of Xi baryon in Kbar-N scattering	Prof. OH, Yongseok
10:15	[14]	Dibaryons with heavy quarks	Prof. HUANG, Hong-Xia
