

## CMS weekly meeting

Friday, 31 October 2008

Physics session - 204 (14:30 - 20:50)

| time  | [id] title                                       | presenter           |
|-------|--------------------------------------------------|---------------------|
| 14:30 | [0] inclusive b to J/psi status                  | Dr MENG, xiangwei   |
| 15:00 | [1] CMS T2-Beijing status and tutorial           | Dr ZHANG, xiaomei   |
| 15:20 | [2] wzjj higgsless model new boson search status | Dr BIAN, Jianguo    |
| 15:40 | [3] pi0/gamma and higgs to 2gamma status         | Mr TAO, Junquan     |
| 16:00 | [4] H-->ZZ-->mumununu                            | Dr WANG, Jian       |
| 16:20 | [5] B+ to J/psi K+ status                        | Mr WANG, Zheng      |
| 16:50 | [6] prompt J/psi status                          | Mr ZHU, Bo          |
| 17:10 | [7] HCAL energy deposit                          | Mr GUO, Shuang      |
| 17:30 | [8] hadron longitudinal shape in ECAL            | Dr YANG, Min        |
| 17:50 | [9] Z'-->mumu status                             | Mr CHEN, Mingshui   |
| 18:10 | [10] pi0/gamma neuronet and H-->2gamma status    | Mr ZHANG, Zhen      |
| 18:30 | [11] (no title)                                  | Mr TANG, Zhi-Cheng  |
| 18:50 | [12] hadron shower shape                         | Mr ZANGJJ, jingjing |
| 19:10 | [13] Higgs to tau tau                            | ZHANG, zhenxia      |
| 19:30 | [14] hadron shower shape sim                     | Mr LIANG, song      |
| 19:50 | [15] Higgs to gamma gamma study                  | Ms XIAO, Hong       |
| 20:10 | [16] eta-b                                       | Mr WANG, jian       |
| 20:30 | [17] (no title)                                  | Dr WANG, Xianyou    |
