

10th Workshop of the France China Particle Physics Laboratory

Tuesday, 28 March 2017

Astroparticles & Cosmology - Lecture Hall, Department Of Engineering Physics (09:05 - 12:00)

-Conveners: Olivier Martineau

time	[id] title	presenter
09:05	[13] Directional Dark Matter Detection with MIMAC	SANTOS, Daniel
09:25	[8] Status & prospects for the LHAASO experiment	Prof. HUIHAI HE, Huihai
09:50	Coffee break	
10:20	[9] Cosmic ray detection with LHAASO	Dr MA, lingling
10:40	[10] Autonomous radio-detection of air showers with TREND	Dr LE COZ, Sandra
11:00	[11] Status and persepective of the GRAND project	MARTINEAU, Olivier
11:20	[12] On the PeV knee of cosmic-ray spectrum and TeV cutoff of electron spectrum	Dr LIU, Wei
11:40	[7] Black hole candles for expansion history of high-z Universe.	WANG, JianMin
