

The 13th Symposium on Accelerator Physics

Wednesday, 30 August 2017

Session 10 (10:30 - 12:00)

-Conveners: Kuanjun FAN

time	[id]	title	presenter
10:30	[32]	Progresses on the experiments of laser driven THz radiation source	LIU, Jiansheng
10:55	[33]	Progresses on the beam physics study and the construction of 230MeV superconduction cyclotron	ZHANG, Tianjue
11:20	[34]	Experimental Polarization Control of Thomson Scattering X-ray Source	ZHANG, Hongze
11:40	[35]	Beam Optimization and Measurment of CAEP FEL-THz Injector	WU, Dai
