

**Workshop on Ambient
Ground Motion and Vibration
Suppression for Low
Emittance Storage Ring
(GM2017)**

Monday, 11 December 2017 - Wednesday, 13 December 2017

IHEP

Book of Abstracts

Contents

Opening address	1
Beam orbit stability issues in worldwide synchrotron radiation facilities	1
Opening address & Progress of the HEPS project	1
Beam Stability Consideration for Low Emittance Storage Ring	1
Group photo & coffee break	1
Beam Orbit Stability Issues at the SPring-8 Storage Ring	1
Beam Orbit Stability Issues for User Operations at TPS	1
Update from the MAX IV Stability Task Force	2
Mechanical Motion Measurement System Design and Initial Results	2
Ambient Ground Motion Measurement and the Preliminary Analysis for HEPS	2
NLSLS-II Site Vibration Measurements and Girder Support System Design for Mechanical Stability	2
coffee break	2
Mechanical Stability Issues in SSRF Storage Ring	2
Discussion	2
Commissioning the Fast Orbit Feedback System at SSRF	3
Long-Term Motion Correction of BPM Position Using the Mechanical Motion Measurement System	3
Preliminary Design and Performance Analysis of the FOFB System of HEPS	3
coffee break	3
Estimation of the expected beam motion due to ground vibration at the APS-U storage ring and its use in tolerance calculations	3
Estimation of the orbit feedback performance for HEPS	3
Vibration Measurements at KEKB/SuperKEKB, and Experience with Vibration Damping Material	3

Micro-vibration Environment Control Technology of HEPS	4
Preliminary Design of Foundation for HEPS	4
coffee break	4
Vibration Study of HEPS-TF Magnet Girder	4
The Influence of Vibration on BPMs and Its Suppression	4
Discussion	4
Effect of Ground Motion and Vacuum Chamber Vibration Caused by Cooling Water System on Beam Orbit Stability at the SPring-8 Storage Ring	4
Optimization Design of the Vibration Isolation of AC magnet Girder	5
coffee break	5
Summary of Session 1	5
Summary of Session 2	5
Summary of Session 3	5
Summary of Session 4	5
Summary of Session 5	5
Discussion	6
Summary of Session 1	6
Summary of Session 2	6
Summary of Session 3	6
Summary of Session 4	6
Summary of Session 5	6
Reception	7
Banquet	7
Mechanical Motion Measurement System Design, Initial Results and Experiments with Or- bit Feedback	7
Close Remark	7

5

Opening address

6

Beam orbit stability issues in worldwide synchrotron radiation facilities

Session 1: Beam orbit stability issues / 7

Opening address & Progress of the HEPS project

Corresponding Author: qinq@ihep.ac.cn

Session 1: Beam orbit stability issues / 8

Beam Stability Consideration for Low Emittance Storage Ring

Corresponding Author: zhanglin@slac.stanford.edu

Session 1: Beam orbit stability issues / 9

Group photo & coffee break

Session 1: Beam orbit stability issues / 10

Beam Orbit Stability Issues at the SPring-8 Storage Ring

Corresponding Author: takao@spring8.or.jp

Session 1: Beam orbit stability issues / 11

Beam Orbit Stability Issues for User Operations at TPS

Corresponding Author: huang.james@nsrrc.org.tw

Session 1: Beam orbit stability issues / 12

Update from the MAX IV Stability Task Force

Corresponding Author: brian_norsk.jensen@maxiv.lu.se

13

Mechanical Motion Measurement System Design and Initial Results

Corresponding Author: sereno@aps.anl.gov

Session 2: Vibration measurements / 14

Ambient Ground Motion Measurement and the Preliminary Analysis for HEPS

Corresponding Author: yanfang@ihep.ac.cn

Session 2: Vibration measurements / 15

NSLS-II Site Vibration Measurements and Girder Support System Design for Mechanical Stability

Corresponding Author: spataro@bnl.gov

Session 2: Vibration measurements / 16

coffee break

Session 2: Vibration measurements / 17

Mechanical Stability Issues in SSRF Storage Ring

Corresponding Author: dengrongbing@sinap.ac.cn

Session 2: Vibration measurements / 18

Discussion

Session 3: Orbit feedback / 19

Commissioning the Fast Orbit Feedback System at SSRF

Corresponding Author: jiangbocheng@sinap.ac.cn

20

Long-Term Motion Correction of BPM Position Using the Mechanical Motion Measurement System

Corresponding Author: sereno@aps.anl.gov

Session 3: Orbit feedback / 21

Preliminary Design and Performance Analysis of the FOFB System of HEPS

Corresponding Author: jindp@ihep.ac.cn

Session 3: Orbit feedback / 22

coffee break

23

Estimation of the expected beam motion due to ground vibration at the APS-U storage ring and its use in tolerance calculations

Corresponding Author: sajaev@aps.anl.gov

Session 3: Orbit feedback / 24

Estimation of the orbit feedback performance for HEPS

Corresponding Author: duanz@ihep.ac.cn

Session 4: Vibration suppression techniques / 25

Vibration Measurements at KEKB/SuperKEKB, and Experience with Vibration Damping Material

Corresponding Author: mika.masuzawa@kek.jp

Session 4: Vibration suppression techniques / 26

Micro-vibration Environment Control Technology of HEPS

Corresponding Author: zhaominghui@ceedi.cn

Session 4: Vibration suppression techniques / 27

Preliminary Design of Foundation for HEPS

Corresponding Author: xuzhaogang@ceedi.cn

Session 4: Vibration suppression techniques / 28

coffee break

Session 4: Vibration suppression techniques / 29

Vibration Study of HEPS-TF Magnet Girder

Corresponding Author: wangzihao@ihep.ac.cn

Session 4: Vibration suppression techniques / 30

The Influence of Vibration on BPMs and Its Suppression

Corresponding Author: wangzz@ihep.ac.cn

Session 4: Vibration suppression techniques / 31

Discussion

Session 5: Other vibration source / 32

Effect of Ground Motion and Vacuum Chamber Vibration Caused by Cooling Water System on Beam Orbit Stability at the SPring-8 Storage Ring

Corresponding Author: matsui@spring8.or.jp

Session 5: Other vibration source / 33

Optimization Design of the Vibration Isolation of AC magnet Girder

Corresponding Author: zhangjs@ihep.ac.cn

Session 5: Other vibration source / 34

coffee break

35

Summary of Session 1

Corresponding Author: jiangbocheng@sinap.ac.cn

36

Summary of Session 2

Corresponding Author: zhanglin@slac.stanford.edu

37

Summary of Session 3

Corresponding Author: sereno@aps.anl.gov

38

Summary of Session 4

39

Summary of Session 5

Corresponding Author: takao@spring8.or.jp

Session 3: Orbit feedback / 40

Discussion

Summary session / 41

Summary of Session 1

Corresponding Author: jiangbocheng@sinap.ac.cn

Summary session / 42

Summary of Session 2

Corresponding Author: zhanglin@slac.stanford.edu

Summary session / 43

Summary of Session 3

Corresponding Author: sereno@aps.anl.gov

Summary session / 44

Summary of Session 4

Corresponding Author: brian_norsk.jensen@maxiv.lu.se

Summary session / 45

Summary of Session 5

Corresponding Author: takao@spring8.or.jp

Session 2: Vibration measurements / 46

Reception

Session 4: Vibration suppression techniques / 47

Banquet

Session 3: Orbit feedback / 48

Mechanical Motion Measurement System Design, Initial Results and Experiments with Orbit Feedback

Corresponding Author: sereno@aps.anl.gov

Summary session / 49

Close Remark
