

Workshop on Ambient Ground Motion and Vibration Suppression for Low Emittance Storage Ring (GM2017)

Monday, December 11, 2017 - Wednesday, December 13, 2017

IHEP

Scientific Program

Tentative Agenda:

Dec. 10 (pm): Registration;

Dec. 11 (am): The beam vibration status and the assessment at worldwide synchrotron facilities;

Dec. 11 (pm): Ground and ambient motion measurements at worldwide synchrotron facilities;

Dec. 12 (am): The orbit feedback and the specifications determinations;

Dec. 12 (pm): Vibration suppression/ isolation techniques and the mechanical stability considerations;

Dec. 13 (am): Summary and closing session.
