

# The 7th East Asia Accelerator Mass Spectrometry Symposium (EA-AMS-7)

Saturday, 25 November 2017

Post conference excursion to Yangsuo (Li River, XiJie street) and Xin' an (Lingqu Canal) for field trips.  
As one of China's top tourist destinations, the Li River is honored to be the largest and most beautiful karst gallery of the world, making it a must see during your Guilin vacation. ( <http://www.liriver.com.cn> ), In Xin' an, we will visit the Lingqu Canal, with its ancient origin in the Qin Dynasty (221 - 207BC), is one of the oldest and most well-preserved canals in the world ( <http://www.lingqu8.com/> ). - University Academic Lecture Hall (08:00 - 17:00)
