

## 29th Linear Accelerator Conference-LINAC18

Monday, 17 September 2018

Oral Poster MOOP - Juying Ballroom (15:00 - 16:00)

-Conveners: Yuji Otake

time	[id] title	presenter
15:00	[61] A 3-gap Booster Cavity to Match Ion Source Potential to RFQ Acceptance	LAXDAL, Robert
15:05	[62] The 7 MeV APF DTL for Proton Therapy	XIE, Xiucui
15:10	[63] Status of CLARA Front End Commissioning	BRYNES, Alexander
15:15	[64] Status of the 10 MW MBKs During Commissioning of the European XFEL in DESY	VOGEL (FOGEL), Vladimir
15:20	[65] Coherent Synchrotron Radiation Monitor for Microbunching Instability in XFEL	KO, junho
15:25	[66] Dielectric Waveguide-Based THz Radiator Study for SwissFEL	SHI, liangliang
15:30	[67] SRF Gun Development at DESY	VOGEL, Elmar
15:35	[68] Beam Dynamics Studies and Instrumentation Tests for Bunch Length Measurements at CLEAR	GAROLFI, Luca
15:40	[69] RF Operation Experience at European XEL	BRANLAND, Julian
15:45	[70] Development of a Linear Electron Accelerator-based Neutron Source for Analysis of Structural Materials	O'ROURKE, Brian Eugene
15:50	[71] Design of the High Gradient Negative Harmonic Structure for Compact Ion Therapy Linac	KUTSAEV, Sergey
15:55	[72] A Risk-Based Approach to Improving Beam Availability at an Accelerator Facility	BARKLEY, Walter
